

WE ARE MAXIS

For us, What's Next. is not a question so much as it is a mindset. We are obsessed with providing Malaysians the best access to the constantly expanding universe of digital applications - mainstreaming innovations so that they become solutions that empower the masses.

We take pride in our continuous innovations as we evolve from being just a leading telco to providing our customers with an unrivalled suite of innovative and end-to-end communications experience. We empower our enterprise customers with New Ways of Working by providing integrated mobility solutions and fixed connections, enabling businesses to digitally engage their customers in meaningful ways.

We ensure our customers enjoy superior communications experiences by offering the best network. At Maxis, we don't believe in settling for average - we raise the bar with our industry-leading 4G LTE network, the widest and fastest in Malaysia. We have committed our long-term investments into expanding our 4G LTE coverage so that all our customers enjoy an uncompromised Internet experience.

Beyond our engagement with consumers, we are also passionate about creating positive, long-lasting impact within the communities that we operate in. Our Economic, Environmental and Social (EES) responsibility credential is founded on our philosophy of enriching local communities through our EES activities and programmes.

Our people are the driving force of the MaxisWay. They personify our high-performance culture, imbued with the spirit of passion, positivity and collaboration within a fun and dynamic workplace. Our employees are high-performing talents who are always enthusiastic about expanding their capacity and contributing their unique skills. Our focus on ensuring that our employees achieve personal and professional success makes us an employer of choice, attracting the best and brightest in the industry.

As we continue our journey towards becoming a fully digitalised Maxis, we are on course to becoming the preferred choice for digital experience seekers in Malaysia.
